UC200

USB 2.0 CardBus PC Cards

Hi-Speed peripheral connection for PCs. It delivers advanced functionality and flair to run devices to 40 times faster than legacy USB 1.1 ports.USB 2.0 Hi-Speed technology allows users a hassle free way to connect hi-speed peripheral devices to their computers such as DVD, CD-RW, and scanners. USB 2.0 can transfer data up to 480Mb/sec, or 40 times faster than USB 1.1, and is an ideal solution for data intense applications like digital video downloads, digital cameras, external storage devices, and high-speed cameras.

Features

- 2 port PC Card USB 2.0 host - slides neatly into notebook PCs.
- Improves peripheral performance for printers, scanners, etc.
- External power supply included.
- Supports 32-bit CardBus PC Card type II slots
- Quick& easy installation - ideal for any mobile executive.
- Provides 2 external USB type-A ports.
- Supports transfer rate of 1.5/12/480 Mbps.
- Fully forward and backward compatible with USB 1.1.
- Automatically switches to the peripheral's highest supported speed.
- Supports high-speed (480 Mbps), full-speed (12 Mbps), and low-speed (1.5 Mbps) data transfer modes.
  - Connect up to 127 devices
  - Support simultaneous operation of multiple USB 2.0 and 1.1 devices

Standard compliant:

- Compliant with the USB 2.0 specification (USB-IF Approved)

Network Operating System Support:

- Plug and Play under Windows 98SE/ME/2000/XP.

（Compatible even after you upgrade your operating system ）

Physical Specification:

- Dimension: 11.3(H) 54.10(W) 113(L)
- Weight: 420(g)

EMC Certification:

- FCC Class B (DoC)
- CE and USB 2.0 logo certified

System Requirement

- Pentium-class notebook computers
- One available CardBus slot
- Windows 98SE, Me, 2000, or XP
